

# **NASA SPACE CHALLENGE 2021**

BY TEAM EXPERIENCE

# TEAM OWNER

- My name is Ameen Popoola.
- I am 19 Years Old from Limerick,Ireland
- I am currently in my 2<sup>nd</sup> Year studying Computer Systems in the University Of Limerick.

# OUR CHOSEN CHALLENGE

- The challenge we have chosen to attempt is Unlocking The Secrets Of The Sun
- The aim of our project is to help improve your knowledge of the many spacecrafts exploring the sun.
- Our project aims to make people more aware of heliophysics expeditions and enhance their understanding of why these expeditions are so important.

# WHY DID I CHOOSE THIS CHALLENGE?

- People already have long and in depth websites detailing projects such as the Parker Solar Probe and The Solar Orbiter.
- The task for me was design a simple , yet effective website which would give the reader a lot of the information they need to know to boost their understanding of the sun.

# PROJECT OVERVIEW

- We have decided to make a HTML5 website that can be used to educate people of any age.
- The site shall include an definition of what heliophysics actually is , as well as discussing projects such as The Parker Solar Probe and The Solar Orbiter.
- We also aim to discuss want the future of heliophysics looks like at this current time.
- Overall , this website should provide an worthy , simple and efficient learning experience for the user while enhancing and building upon their previous understanding of the sun and the explorations around it!

The background is a blue gradient with decorative white circuit-like lines in the corners. These lines consist of straight segments and small circles, resembling a stylized electronic circuit board.

THANK YOU FOR OBSERVING  
MY PROJECT DEMO!!
